Dear Madam Prime Minister,

Please protect the future of the Jamaican Iguana by establishing the long-promised sanctuary on Great Goat Island and ensuring the integrity of the Portland Bight Protected Area. Our iguanas are found only in Jamaica, they're among the planet's 100 most endangered species and were rescued from extinction in one of the world's most amazing conservation successes. Please don't reverse Jamaica's global commitments to protect its plants, animals and livelihoods.

**The Most Honourable Portia
Simpson-Miller M.P.**

Prime Minister of Jamaica

**The Office of the Prime Minister
